

# The RDF Unified Migration Portal (TRUMP)

Kickoff June 14th 2016

# Timeline

06 2016

requirements gathering and use cases; dataset study; inventory and curation; demo mockup

23-06 Presentation official ADS kickoff

(approx. 4 compulsory seminars and masterclasses to present research and network)

09 2016

dataset study; inventory and curation; vocabulary choices; design choices; application specification

10 2016

dataset study; inventory and curation; dataset conversion to RDF; demonstration application development

11 2016

paper writing; dataset conversion to RDF; demonstration application development

12 2016

paper writing; presentation preparation

01 2017

paper submission; presentation on the project results and demonstration

# Cooperation

Rutger Rienks ([R.Rienks@amsterdam.nl](mailto:R.Rienks@amsterdam.nl)) and Annemieke van Velzen ([A.vanVelzen@amsterdam.nl](mailto:A.vanVelzen@amsterdam.nl)) from DataLab Amsterdam will:

- provide us a contact with a business partner, who's an expert in the domain, for additional guidance of the assistants
- be happy if the project results end up in [data.amsterdam.nl](http://data.amsterdam.nl)
- be happy if the assistants would spend some time physically at the DataLab in Weesperstraat (they have cake!)

Additionally, Sabine Niederer ([s.m.c.niederer@hva.nl](mailto:s.m.c.niederer@hva.nl)) would be happy to connect the team with:

- the Knowledge Mile (which is mentioned in the application and could function as a platform for visibility),
- the Refugee Company (partner of the Knowledge Mile), and
- the Issue Mapping students at UvA Media Studies (who did an extensive mapping of refugee routes recently).

Furthermore, Sabine would be happy to discuss the project to see whether it fits with an exhibition of migration mappings in fall 2016.

=> make appointments

# Organization

- All software & organisation online:  
<https://github.com/organizations/TRUMP-project/>
- One day per week Dimitris & Francesca office time  
=> coordinate yourself
- Possibility of weekly face-to-face meetings (on Tuesdays)
- Weekly status reports: <https://github.com/TRUMP-project/documentation/wiki/Status-updates>
- Meetings / office time at DataLab
- Bureaucracy

# Publication

- Write a paper on project and results
- Literature review: related work and suitable venue
